

YOU ARE INVITED TO A POWER COMMUNITY ENERGY WORKSHOP

LOCAL ENERGY. LOCAL OWNERSHIP. LOCAL BENEFIT.

Help shape Epping Forest's energy future.

What if more of the energy we use
was generated locally – and owned
by the community?

Join this free, interactive POWER workshop –
Planning Our Way to Energy Resilience – to explore
renewable energy, reduce costs and build a cleaner,
fairer and more resilient future for Epping Forest.

WHAT YOU'LL EXPLORE AT THE WORKSHOP

- Discover how community-owned renewable energy works – and what it could mean for Epping Forest.
- Explore practical opportunities, including rooftop solar, wind energy, community batteries and local energy partnerships.
- Find out how local people and councils can have a voice, a vote and a stake in community energy organisations.
- Help decide how surplus income could be reinvested in local priorities – supporting community facilities, tackling fuel poverty and strengthening local services.

WHEN & WHERE
10am–12 noon
Saturday,
3 October 2026

Civic Offices
323 High Street,
Epping CM16 4BZ

EVERYONE IS WELCOME

No technical knowledge is needed — just bring your ideas,
questions and interest in a better local energy future.

Join us and help shape your energy future!
